- Letter or report documenting cost and savings
- Presentation to decision-makers

*Providing cost and savings estimates
for budgeting.*

*Agate's 1936 windows will
finally be replaced in 2002.*

COLORADO SUCCESS STORY:

CDE Grant of \$402,000 Polishes Agate Schools

In 2001, Agate 300 School District was faced with an aging building and no budget to improve it. The district, which serves 70 families in the eastern Colorado town of Agate, had few options for improving its facilities. Then, with project cost and savings estimates supplied by *Rebuild Colorado*, parent volunteer and engineer, Becky Cudzilo applied for and won a grant from the Colorado Department of Education. The \$402,000 grant will be used to install new doors and windows, insulate the roof, install new lighting, and replace aging propane tanks during summer 2002.
